I was swimming, in a river of darkness
Feel the waters, rushing over my head.
Like an angel, you were there to save me
Just one touch, of your gentle hand.

Chorus:

Since I found you I can climb a mountain,
Since I found you I can swim the tide
You brought me life, you showed me heaven

I found love, when I found you.

There were walls, standing all around me
Thought I'd never see, the walls come down.
But like a miracle, my eyes were opened
My prayer was answered, when you came around.

Repeat Chorus

Bridge:

When we look back, on our life's journey
Lines on our faces will show the miles
We'll share the memories, give God the glory
If I can hear your laughter, and see you smile.

Repeat Chorus
