Kick that beat in Ren

[MC Ren]

Ahh yeah

We gonna get busy one time

for the motherfuckin bitches out there in Compton

To this slow, slowww, slowwwww ass beat

We got my man Chip in the house

My man Young D, my man Donovan

And I am... the incredible MC Ren

and my man Lil Nation's gonna do it somethin like this  
so check it out

[Lil' Nation]

This is the ballad of a menace

not to be confused with that of a grimace

I'm in this to be number one, when I step upon

and walk the streets, stalk the meat, like that of a  
predator

blow the brains out the head of my competitors

I'm a product of your sins, though you say I never  
heard of ya

A killer, dope dealer, gangsta murderer

merciless maniac, monical manipulation

Primary focus of your local police station

I roll cold in my 'llac

Pumpin sounds that are great, doin a jack move

As I groove, the gangsta melody

Heads are cracked to a nine year old

And I've been told pimpin hoes is a felony

But I'm not a doctor or lawyer I wasn't made to be

Ever Luciferic because I get paid to be

There ain't no rehabilitatin, pull a gat on your  
grandmother

Then take her social security

The boundary lines of my jurisdiction expands

from day to day, ruler of all I survey

And with that, load up my gat then I pack

So I can buzz on the suckers that you replenish

This is the ballad of a menace

"I'm a menace to society..." - Ice Cube (cut and scratched 6X)

"It looks like you're gonna be in the record business  
You think it's a pretty good idea?" "Oh yeah!"

[MC Ren]

This is a ballad of a menace  
Ren will finish and diminish  
All the suckers that thought they could flow like me that  
was in this  
Society wishes for my death, or my downfall  
But they're playin theyself, as if they playin some  
roundball  
Cause I'm terrorizin, the territory I'm steppin on  
Endangerin citizens while I'm keepin my weapon on  
my hip like a psycho, cause to me it's hospitable  
I just got word, the Ruthless Villain was critical  
Let's get it straight, the ones that want some can come  
with that  
Illiterate motherfuckers I make you look dumb with that  
Stumble and fumble cause I'ma crush til you crumble  
So you can stutter and stutter but keep it down to a  
mumble  
MC Ren, is never taken as the sucker  
In other words, I'm a bad motherfucker!  
So next time I walk your streets you should know  
To lock your doors, and close your windows  
And if you was thinkin that protection could stop me  
It takes a continent, full of niggaz to drop me  
And for me to be vicious yo it's valid  
While I'm conductin and producin  
a ballad of a motherfuckin menace

"I'm a menace to society..." - Ice Cube (cut and scratched 8X)

[Young D]

I carry my balls just like a gauge  
Nobody's safe when I'm enraged  
Sacrifice the suckers and weak motherfuckers  
that run in fear, I'm the menace to misery  
Answer the knock at your door and open the AK  
delivery  
Best known for bein unsympathetic when I pick em  
Cause sympathy is for the pathetic and to the victim  
kill em and kill another mercy my only incapacity  
started by killin my own mother  
Maniacal madman, son of Mephisto  
Fine to go to Hell, since I was an embryo  
A criminal, cold standin in a gangsta pose

Steppin with Ren the Villain slappin up all the hoes  
Your mother your sister your daughter your wife  
And if you was reincarnated I would snatch your  
second life  
In it for the money, down for me myself and I  
you see, and fuck the community  
I know in conclusion that death is my destiny  
But fuck it, be shootin motherfuckers that's left to me  
So write my malevolent epitath, put it in the book of  
Guinness  
And title it, The Ballad of a Menace

"I'm a menace to society..." - Ice Cube (cut and  
scratched to fade)
