Looking through the hole of time  
I can see the end is coming  
Closer I can hear it calling  
Beating away at me  
Touching every soul in fear  
Comforting from far and near  
Now I wish you all the best

In all of your misery  
In all of your misery  
In all of your misery

Angry and I'm feeling so scared  
Only 'cuz I wanna face all these fears I close my eyes  
I'm drifting out far away  
Angry and I'm feeling so  
Only 'cuz I wanna face all these fears I close my eyes

To sleep off this misery  
To sleep off this misery  
To sleep off this misery

He had a darkness there inside  
Blacking out the light of day  
Stick your heart out open wide  
Let it go and find its way

Looking through the hole of time  
You'll never get away  
Touching every soul in fear  
And all of your misery  
Looking through the hole of time  
You'll never get away  
Closer I can hear it calling  
Beating away at me

He had a darkness there inside  
Blacking out the light of day  
Stick your heart out open wide  
Let it go and find its way
