Here I come

I tried to heal you but my enemy was strong  
I tried to kill it but it rendered me unsung  
I tried to taste you but your bitter to my tongue  
But I still believe, I still still believe  
I can set you free

[Chorus]

I burn with fire you'll pretend  
I am your enemy and friend  
I feel your hate that's deep within  
More than I ever wanted  
I'll beat the loser you defend  
You'll be my enemy and friend  
I feel your hate that's deep within  
More than I ever wanted

There's no time to think it over when I see red (when I  
see red)  
Left into a world that's in my mind  
So very cold from which  
I can set you free

[Chorus]

I'll burn with fire you'll pretend  
I am your enemy and friend  
I feel your hate that's deep within  
More than I ever wanted  
I'll beat the loser you defend  
You'll be my enemy and friend  
I feel your pain that's deep within  
More than I ever wanted

Stay away, make yourself turn away  
Look away, all the envy I cant explain  
It still remains when I turn away

I can set you free  
I burn with fire you'll pretend  
I am your enemy and friend  
I feel your hate that's deep within

More than I ever wanted  
I'll beat the loser you defend  
You'll be my enemy and friend  
I feel your pain that's deep within  
More than I ever wanted  
Wanted  
Wanted  
Wanted
