Fall to my knees
Just to be close to God
An' I fall to the floor from your love

I am weakened by your innocence
An' touched by your tenderness
I search just to find that you're enough

I'm here, here, here, here
Call on me, yeah, everything
Every moment I think of you
Is every thought that shatters

All this time just to break up
I'm bored and so alone, wake up
I'm bored and so alone, wake up
Wake, wake, wake, wake, wake, wake, wake

I will be your protector
Guided by the light from Heaven
I will stand and never be undone

Like a flame with a million hours
Keeping warm this enchantment
All that goes inside this grace is yours

I'm here, here, here, here, call on me, yeah
Everything, yeah, you an' me
Every moment I think of you
Is every thought that shatters

All this time just to break up
I'm bored and so alone, wake up
I'm bored and so alone, wake up
Wake, wake, wake, wake, wake, wake, wake

Love me, love me before you tell me
All the reasons why you couldn't have me
Everything's so fucked up in my head
I don't know for sure, that's what she said

Tell me, tell me please won't you let me

Tell you how inside I feel so empty
Nothing left but thoughts of better times
Letting heal this broken heart an' mind

I can't find your will to be saved
Waking all this fears inside me
I can't find your will to be saved
Wake up, find yourself inside me
