If you have been away and left this world behind  
So fare away, no problems on your mind  
Alone again, feeling very sad  
Left with your memories

If you have been away and made a lot of fun  
No place to stay, always on the run  
Alone again, feeling very sad  
Left with your memories

Is it really worth-while?

Is it really worth-while?

Now if you've been away and wandered on the shores  
Games to play, so what you've been looking for?  
Alone again, feeling very sad  
Left with your memories  
Left with your memories  
Left with your memories
