Won't look beyond their own existence  
Don't understand difficult circumstances  
Only know what little they've experienced  
No, I won't waste my breath because they lack sense

Plague of the Earth, a propaganda fantasy  
That never gels in the test of reality

Infiltrated every aspect  
Infiltrated every aspect, mechanisms  
Infiltrated every aspect  
Infiltrated every aspect, inject brainwash

Look back through the past, see the mass grave  
Filled with corpses of the helpless slain  
Once established always ends the same  
Expansion is the next stage of their game  
Invasion forces capture a country, occupy the territory

Infiltrated every aspect  
Infiltrated every aspect, mechanisms  
Infiltrated every aspect  
Infiltrated every aspect, inject brainwash

Go

Theories in practice, demons run wild  
Skulls on skulls are stacked and piled  
Master creator, human nature denied  
Kills the incentives for the best to strive

Infiltrated every aspect  
Infiltrated every aspect, mechanisms  
Infiltrated every aspect  
Infiltrated every aspect, inject brainwash

Only know what little they've experienced  
No, I won't waste my breath because they lack sense  
Plague of the Earth, a propaganda fantasy  
That never gels in the test
