### "To The Death"

Beneath the glare  
Days of agony are spent  
Caged, chained or penned  
Above a floor of wire fence  
Every basic right denied  
Inescapable insanity  
Dominates every moment  
Enslaved and entombed  
I disengage the death machine  
Species torn from nature  
Individuals decreased  
From living beings no nothing more  
Than mechanized protein machines  
Calves seized from their mothers  
Confined in veal crates  
Meat, dairy industries connect  
To end with the same fate

Enslaved and entombed  
I disengage the death machine  
Boxcars, stockyards – the killing floor  
Decapitated in the abattoir  
Partake suffer the consequence  
Anthropocentric arrogance  
Beneath the glare  
Days of agony are spent  
Caged, chained or penned  
Above a floor of wire fence  
Every basic right denied  
Even the freedom of movement  
Inescapable insanity  
Dominates every moment  
Vegan for life  
Vegan to the death
