

## **Earth, Wind & Fire** **"All About Love"**

Visit "[All About Love](#)" on MotoLyrics.com

We know it's been time, talking to you  
So we figure we lay it on you  
Let you know how we feel about, love

Paint a pretty smile, each day  
Lovin, is a blessin'  
Never let it fade away  
It's all about love

Build yourself a true romance  
Beauty that surround you  
You deserve, just one more chance  
My dear, my dear

Let the light shine, all through your mind  
Built your little heart, a glow  
Take the time, make up your mind  
It's all about love

Talking to yourself is fine  
Makes you feel, much better  
Know just where to draw the line  
My dear, my dear

Let the light shine, all through your mind  
Feel your little heart, aglow  
Take the time, make up your mind  
It's all about love

Talking to yourself is fine  
Makes you feel, much better  
Know just where to draw the line  
My dear, my dear

Bound to fall in love one day  
Surely and you need it,  
Pretty smile will always say  
"My dear"

{We want to take this moment  
To run down a couple of things  
About things we see everyday

Now, I want you to stop!  
Whatever you're doin', just stop!  
Someone is after you, you know  
They say  
"There's beauty in the eyes of the beholder"  
You know which I say is a natural fact  
'Because you are, as beautiful as your thoughts, right  
on!

You know like, widows for instance, you know like we  
study  
All kind of cult sciences an' astrology an' mysticism,  
world religion  
So forth we did and like  
Ah, coming from your place  
All these things help  
Because they give you an inside to your inner self  
Have mercy!

Now there's a outer self we gotta deal with  
The one that likes to go to parties  
One that likes to dress up  
Be cool, look pretty, all ego trips and all this

And so I Hear you all  
I'm trying to tell you, you gotta love you  
Gotta learn all the beautiful things around you, trees  
and birds  
And if there ain't no beauty  
You got to make some beauty, have mercy!  
Listen to me, yeah!

Feeling you had  
Feeling  
Talking about beauty  
I want the feeling  
Can't make you feel  
I want the feeling  
Gonna make you believe  
Feeling  
Feeling
