Nothin' but a dance baby that's for certain  
Take another glance (at) what's behind the curtain  
Sweet mystery is calling

Simple truth is right before your eyes  
Don't you think it's time you realize  
You and me belong together  
Right or wrong forever and a day

Even if you wonder  
Love is still the game  
Even if you wonder  
Every time

Take it from the top where the cream is risin'  
Never gonna stop you're too tantalizin'  
How can you keep me waiting?

Higher love is not above the law  
Got to put my faith in what I saw  
Try your best to rearrange them  
Some, things, baby, never gonna change

Even if you wonder  
Love is still the game  
Even if you wonder  
Every time

You and me belong together  
Right or wrong forever and a day

Even if you wonder  
Love is still the game  
Even if you wonder  
Every time
