I can tell you that love is too deep to be played on
Down the line, you'd find time would reveal who to
count on
I'm well inclined to use the lines that comes from the
learning tree
Let the seed that grows and ages old give us our
destiny

Baby, you know, I could pick you up, turn your life
around
If you fall in love with me
I would build you up, never let you down
If you fall in love with me

If you're having second thoughts from the past I can
cool you out
I've been there before right down to the core, I can sing
and shout
I can't hold back what I feel, I bring experience
I'll be your rock when Gibraltar falls, baby give me a
cause

Baby, you know, I could pick you up, turn your life
around
If you fall in love with me
I would build you up, never let you down
If you fall in love with me
Baby, in love with me, find yourself a part of me
Baby, in love with me, help yourself to all of me

I've got your number and I wanna shout
I dig you baby, come and check me out

Baby, you know, I could pick you up, turn your life
around
If you fall in love with me
I would build you up, never let you down
If you fall in love with me
Baby, in love with me, find yourself a part of me
Baby, in love with me, help yourself to all of me

Can you fall in love? Oh baby, tell baby

Can you fall in love with me? Yeah, oh baby, oh baby
