Magic mirror come and search my heart
Can you tell me what you see?
There's a thousand voices whispering
Songs and you're the melody

So I imagine my heart with you
See what imagination can, can do
It's not hard to conceive love's ecstasy
Imagining you and me

Many, many days our shadows passed
Seeing visions of a new
Bright horizon set the morning light
Ooo, and that morning lights you

So I imagine my heart with you
See what imagination can do
It's not hard to conceive love's ecstasy
Imagining you, imagining me
The beauty we both can see

You're the dream I prayed would come along
To make real my fantasy
Day and night you live inside my heart
You're the flame of love to me

So I imagine my heart with you
See what imagination will do
It's not hard to conceive love's ecstasy
Imagining you, imagining me
The beauty we both can see

It's funny what love would do
I've been thinking only about you, ooo, baby, yea
It's funny how I feel this way
Wondering about another day, ooo hoo
It's funny what love would do
I find myself thinking only about you baby, yea, ohh
It's funny what love would do
