Say it whatever
Revolution, evolution
Revolution, evolution
Revolution, evolution
Revolution, evolution

Change been the same, growing pains
Since love begun the game
Thangs do they thang through the strain
To the plane they're born to be

Harmony of diversity, sing responsibility
For you and for me, sankofa
Sankofa, stand for yours unite humanity
Tell what you get?

Know and show pure love
Revolution just evolution
(This war zone is not a home)
Grow and show pure love
Revolution just evolution

Bless our sisters, fathers, mothers, brothers
Who press us ahead of schools
(Steve Bikos, Steve Bikos)
Taught us right been condemned to win
And said keep the golden rule
(Show unto others pure love, children)

Harmony of our diversity means accountability
The sacrifice been paid, the price
'Nuff blood shed to beg us to see
(Be true indeed, yeah)

Know and show pure love
Revolution just evolution
Grow and show pure love
Revolution just evolution

Know and show pure love
Revolution just evolution
(This war zone is not a home)

Grow and show pure love
Revolution just evolution

Affirmative action attack
Social welfare cutbacks
Klans without hats
Runnin' prison camps

Peelin' Caps of Mumia's
Gonzolo's Peltier's and Geronimo Pratts
Beat down and shot in the back
Over some don't cross the border crap

Now how we act ain't up to us
If truly be in God we trust
But must we stand for the lust
To make our ducks and live

Big up Rauf move on a move ya dig
Revolution

Know and show pure love
Revolution just evolution
(This war zone is not a home)
Grow and show pure love
Revolution just evolution

Know and show pure love
Revolution just evolution
Grow and show pure love
Revolution just evolution

Harmony, diversity, humanity, accountability
Revolution just evolution
(This war zone is not a home)
Harmony, diversity, humanity, accountability
Revolution just evolution

Harmony, diversity, humanity, accountability
Revolution just evolution, just evolution
(This war zone is not a home)
Harmony, diversity, humanity, accountability
Revolution just evolution
Harmony, diversity, humanity, accountability
