

Earth, Wind & Fire "Spirit Of A New World"

Visit "[Spirit Of A New World](#)" on MotoLyrics.com

We wake from a dream looking through
different eyes
Some other space and time
Where love survives all the changes
Time takes you and I into another life
Burn in our hearts of fire
A new design, we are changing

Let the spirit of a new world
Keep our love alive
In the spirit of a new world
We're in overdrive

Believe all that we feel
Living a future dream
Open our eyes to see technology
Our direction

Let the spirit of a new world
Keep our love alive
In the spirit of a new world
We're in overdrive

Step into the dance
We step into the dance of life
Ride the rhythm take a chance
We can make the spirit rise

Reach out there's a new world we created
Break out, hear your heart shout
You can make it
