I've been tusslin' in my bed
Not with her, but now the pillow instead
Do I got to beg and plead
For no woman to make love to me

Just a wee bit of her time
Said, I need somebody I can call all mine
We ain't got to push a shove, I told her
Give me just a tee nine chee bit of your love
Give me just a tee nine chee bit of your love

She got me walkin', in my stockin' feet
To watch her dress up, is my only treat, yeah
Spend all my money, and it goes to her
What more woman, you're gonna get me rough

My head is itchin' needs a rub
I even scratched my back on the side of the tub
Give me just a tee nine chee bit of your love
Give me just a tee nine chee bit of your love
Give me just a tee nine chee bit of your love
Give me just a tee nine chee bit of your love
