Overnite, I'm caught up in your love
my surprise, baby
all at once, you're all I'm thinking of
come, share my life

chorus:

I'm here for you
welcome to my love
embracing you
welcome to my love

bridge:

Girl, my love is for you
welcome to a love that's true

I think about the time I spend with you
happy days baby
the more I touch, the more I want of you
you changed my ways

chorus:

Got next to me
welcome to my love
can I talk to you
welcome to my love

vamp:

You're my dream come true
welcome love to me and you
while I'm layin' next to you
welcome love to a love that's true
let me talk to you
welcome love for to be with you
