Pray always in Jesus name; talk to Him everyday  
Hear what He has to say; take a moment to be still  
And He'll reveal His will for your life

Saints, accept His guiding hand because He's got a  
plan  
You may not understand, but when you read His Word  
Best news you've ever heard; Give you peace of mind

If God's people who are called by His name  
Would humble themselves and seek His face  
And if we'd turn from our wicked ways  
then He would surely heal the land

He's a wonder working God; knows all that's in your  
heart  
Right from the very start, keeper of all men;  
Put your trust in Him, let your prayer begin  
He will hear you when you call; restore you when you  
fall  
No request too small; no matter where you've been  
He's willing to forgive; you can come to Him  
You should abide in Christ and let His Word abide in  
you  
Ask what you will and know it shall be granted you  
Call on the Lord on one accord  
Where two or three touch and agree  
Ain't no impossibility

We ought to tell the Lord  
Let the Lord know how much we really need Him  
Humbly bow before Him to entreat Him  
Find out through His Word just what will please Him  
'Cause ain't no telling what'll happen when we seek Him

It's just a natural thing when we call upon Jesus name  
Prayer should be a natural thing,  
Coming from the heart into His dwelling  
It's the only way to receive His blessings  
Stay on our knees and keep travailing.
