God is on our side
We shall not be afraid, we shall not be afraid
Though war shall rise against our souls
We shall not be afraid, we shall not be afraid

Though we get weary, we shall not fear
We shall be carried on eagles wings, oh oh

God is on our side we shall not be afraid, we shall not
be afraid

Though the enemy shall come in,
Like a flood the Spirit of the Lord
Will lift up a standard against him
We shall not be afraid, we shall not be afraid

Don't you know that the Lord shall go before us
We shall not fear the enemy
We shall not fear the darkness
We shall not be afraid

No weapon formed against us shall be able to prosper
For when our God is for us He shall cause us to
triumph, yeah

I'm encouraged to know He's on our side, Yeah
He's more than the world against us
Though the enemy should come in, God is on our side
I know that He's walking with me
I know that He's talking with me
He's on our side.
