We serve a mighty God, yes we do
A big God, A great God Oh yeah
We serve a mighty God
What a mighty God is He

Well He speaks just a Word and the winds obey His will
He'll speak in the middle of a storm, "Peace be still"
It ain't nothing but a word
Well He moves in a windstorm making everything calm
He's the great I AM; He performs mighty acts

We serve a mighty God, yes we do
A big God, A great God Oh yeah
We serve a mighty God
What a mighty God is He

Yes, He's deeper than the deepest ocean, wider than
any sea
He lights on the purple mountains majesties
But yet He's not too busy to meet me on my knees
I know He's right here to answer my prayers

I've searched all over but I could not find
None to compare with this God of mine
He is indeed a mighty God
The God that I serve is a mighty God

He's all He says He is; all that He says He is
He's all that, all that and more,
He's all that one could ever hope for

Mighty in Word
Mighty in Deed
Mighty in Power
