I lie quenching my thirst
By drinking the universe out of paper cups
At the local church it kinda hurts
Swallowing electrical things
But most things go down lovely
Monkey got a tape want's me to make a copy for is
trolley
It's hard work listening to him sing with such
melancholy

Left go right straight out of the box
Straight out of the box
Go left go right straight out of the box
Left right straight out of the box

Go left go right straight out of the box
Straight out of the box
Go left go right straight out of the box
Left right straight out of the box

Stretched out outside on the spider grass
He got tomorrow in a plastic bag don't ask!
What would be the point in that
Can't you see he's just one of them
But unlike all the others
Even the strongest of the strange
He don't wanna stay in this cage
He wants to see what it's like everywhere

Left go right straight out of the box
Straight out of the box
Go left go right straight out of the box
Left right straight out of the box

Go left go right straight out of the box
Straight out of the box
Go left go right straight out of the box
Left right straight out of the box

Look at the way they are
Looking back at you
Look at the way they are

Look at the way
Look at the way they move

Look at the way they are
Looking back at you
Look at the way they are
Look at the way they move

Left go right straight out of the box
Straight out of the box
Go left go right straight out of the box
Left right straight out of the box

Go left go right straight out of the box
Straight out of the box
Go right go left straight out of the box
Right left straight out of the box
