

## Earthling "I Could Just Die"

Visit "[I Could Just Die](#)" on MotoLyrics.com

I'm so relaxed  
I could just die  
I wanna move my head  
But I'm too relaxed to try  
The moon be dancing in the sky  
Can you see the black doves fly  
Is it true what the trees said  
Is freddy krueger really dead  
Oh no I better tread softly  
Somebody get this rhino of me

I'm so relaxed  
I could just die  
I wanna move my head  
But I'm too relaxed to try (try)  
I could just die

Take a sip she kept saying  
I licked my lips took a sip as the beat kept playing  
I looked around as it went down  
All the way down  
I didn't hear a sound  
Until about half an hour later  
I got myself a job as a translator  
For a man from mars  
He was on earth wanted to buy some stars  
There was a wolf on the dancefloor  
He was dancing trying to roar  
Like a lion  
The wolf kept trying

Let's roar  
Yeah, let's roar

I'm so relaxed  
I could just die  
I wanna move my head  
But I'm too relaxed to try  
I could just die (die)

Me and the sea had a long conversation  
Hallucination, no this was real

So real you never reach this  
There ain't no teacher can teach this  
Rough, smooth, tip that I'm on  
By the time you get here I'll be gone  
And when I come back  
I'll be back in a flash  
A brain attack  
Another one for the slaughter  
Please control your daughter

I'm so relaxed  
I could just die  
I wanna move my head  
But I'm just too relaxed to try (try)  
I could just die

She pulled that face the one that I had never seen  
She got me running to the place where I ain't never  
been  
Looking around  
Miracle town  
A big green man jumping leaps and bounds  
I saw the tree soaring through the air  
The golden platforms falling down the stairs

I'm so relaxed  
I could just die  
I wanna move my head  
But I'm too relaxed to (but I'm too relaxed) try  
I could just die

Driving now I'll be touched by the morning  
A feeling coming on like a new dawning  
I know what it's like  
To wanna die  
If only for a second  
It's like many say  
I could just die

I reckon
