

Earthling "Miracle Town"

Visit "[Miracle Town](#)" on MotoLyrics.com

Do you feel pleasure as the moon comes down
After splending night on the miracle town
Driving to the left side moving to the dark
Meeting all your friends in miracle park

You decide which side you ride
The light is the sun, the dark is where you hide
All you friends looking through the same lens
It doesn't really matter how much time you spend
Why, cos' the reason's, the reason
In and out I go all through the season

If I see someone that I don't wanna see
I say come down with me
If they say yes or if they say no
It doesn't really matter, cos' i'm gone when I go

Why don't you all come down
Why don't you all come down
Why don't you all come down
To the miracle town

Why don't you all come down
Why don't you all come down
Why don't you all come down
To the miracle town

Did you find it, the shit that you were looking for
We all miss you, we miss you more
Town's the same as you left it
Sometimes mellow sometimes hectic

You can still swim with your wims to the edge of town
Keep on swimming even if you look drown
Some pass through, some pass out
Everyone's asking what's it all about

What's it about is up to you
You can be how you wanna be
Do what you wanna do

Push for the push, take a look around

There's no rules in the miracle town
Push for the push, take a look around
There's no rules

Why don't you all come down
Why don't you all come down
Why don't you all come down
To the miracle town

Why don't you all come down
Why don't you all come down
Why don't you all come down
To the miracle

What's your pleasure tonight
Will you find treasure tonight
What's your pleasure tonight
Will you find treasure

What's your pleasure tonight
Will you find treasure tonight
What's your pleasure tonight
Will you find treasure

Why you don't all come down
Why you don't all come down
Why you don't all come down

Why you don't all come down
Why you don't all come down
Why you don't all come down

Why you don't all come down
Why you don't all come down
Why you don't all come down
To the miracle town

Why you don't all come down
Why you don't all come down
Why you don't all come down
To the miracle town
