Chorus:

Do U really love me (do U still love me)  
Really care  
Do U really need me (do U still need me)  
Need me there  
Do U really want me (do U still want me)  
Do U dare  
Do U still care

Do you remember the time when you were mine  
Brighten up my day like a star would shine  
We had no money, honey, but we didn't care  
We had something special  
Like no other lover could compare  
We had dreams and desires, aspirations entire  
When we made love you'd hear the angels in choir  
Was a love of lifetime precious like a goldmine  
But you had to go - where, I don't know  
And now I spend my night time sleeping alone  
In bed by the phone  
So why don't you call me  
So why don't you call me  
Tell me

Chorus

Are you missing me too  
Like I'm missing you  
Do U still care

I know, just like a rainbow everything must end  
Sometime, someday  
Somehow, someday  
But the bloom was immature, it ended premature  
Two hearts broken by soft words spoken  
In the garden of beginning, our flowers grew the same  
I guess they grew apart, from the wind and the rain  
Now I'm living in pain, will it remain - tell me

Chorus

Really care  
Do U really want me  
Do U dare  
Do U still care

Chorus

Really care (thinking about you)  
Do U really need me (do U still need me)  
Need me there (still thinking about you)  
Are you missing me too  
Like I'm missing you  
Do U still care

Really care (thinking about you)  
Do U really need me (do U still need me)  
Need me there (still thinking about you)  
Do U really want me (do U still want me)  
Do U dare (dreaming about you)  
Do U really love me (do U still care)  
Do U really love me (do U still love me)  
Really care (still dreaming about you)  
Do U really love me (do U still love me)  
Really care (thinking about you)  
Do U really need me (do U still need me)  
Need me there (still thinking about you)  
Do U really want me (do U still want me)  
Do U dare (dreaming about you)
