For denial
You know that i've been waiting for so long
To be with you
Give my hand
You know that i've been held from helping you
Un-clean in form

Cold within
The waves of my delusion crashing in
I'm burned in sin

Darken my eyes
So i will never be
Hollow my heart
So i am free

For denial
You know that i've been waiting for so long
To be with you
Give my hand
You know that i've been held from helping you
Un-clean in form

Cold within
The waves of my delusion crashing in
I'm burned in sin

Darken my eyes
So i will never be
Hollow my heart
So i am free
