The thread has frayed
The fabric is wrenched
My hair and skin will repair
A fear of fear
But fear makes us whole
Access recess
It hides like a trojan
Like a trojan, like a trojan
Cut this away
The debt must be paid
My pound of flesh is still warm
How many times
Can this be replayed
The ships sinks i
Thought the cracks were papered
Cracks were papered, cracks were papered
Clarity, clarity... clarity - show me
Humility - give me
This thread has frayed
The fabric is wrenched
My hair and skin will repair
I cannot bear but chaos will thrive
Reject program
The oceans will take us
Take us oceans, take us oceans
Clarity, clarity... clarity - show me
Humility - give me
