First Thing in the morning when you just arose your
eyes still closed
Your getting up, your feeling down, maybe it cos your
beds creased on one side
you can't hide your face was smiling while you heart
wears a frown
Always moving on, no place to go home living alone
why should it have to be this way?

chorus- We all need someone to love,
we all need someone to love
holding and kissing you
when you go missin you
Keeping you warm from the cold of the night
We all need oh someone to love

your running your hiding you hurt inside
for memories you can't get away
from the pain in your heart
tossing your turning you'll see all you would learn
in a childhood dream can keep it together while your
world falls apart
your just like them, they don't agree, living alone why
does it have to be this way?

repeat chorus

holding and kissing you when you go missing you
keeping you warm from the cold of the night
and to be your companion its all understanding your
every need to be alright
holding and kissing you when you go missing you
keeping you warm from the cold of the night
and to be your companion its all understanding your
every need to be alright

we all need someone to love (repeat 6 times)
holding and kissing you when you missing you keeping
you warm from the cold from the cold of the night
we all need oh someone to love (to fade)
