East 17
Be there
No trouble, no care
Heaven's gonna be there (Be there)
No trouble, no care (Be there)
Heaven's gonna be there (2x)

Reaching out into the night
Calling out but no reply
Oh where do we go from here
When heaven don't feel so near
But I know it will be there
Be there (no trouble, no care)
Heaven is waiting (Be there)

Constellations contemplating
Be there (no trouble, no care)
Call and love will (be there)
Jupiter will shine so brightly
Hold a dream against the wind
Close your eyes and let it in
Oh don't try to cross the sea
Don't try to follow me
Cos I know it will be there

No trouble, no care
Heaven's gonna be there (Be there)
No trouble, no care (Be there)
Heaven's gonna be there (2x)

No trouble, no care

Heaven's gonna be there (Be there)
No trouble, no care (Be there)
Heaven's gonna be there (2x)

Walk along the road
The view gets no clearer
You think you call in vain
But the angels hear ya
From the depths of the darkness

And the level of the devil
Where the demons wait
To take control of ya soul

Time to wise up, rise up
And open your inner eyes up
Find heaven is a state of mind
The place of no face,
No trouble or care
Heaven's gonna be there

No trouble, no care
Heaven's gonna be there (Be there)
No trouble, no care (Be there)
Heaven's gonna be there (2x)

No trouble, no care
Heaven's gonna be there (Be there)
No trouble, no care (Be there)
Heaven's gonna be there (2x)
