I've been praying for You to come and rescue me
From this world gone astray
Seems my soul is at war with my humanity
Lord, I'm clinging to my faith

As You watch me live my days
Make me sure and strong
Let me tear down the walls
Between what's right and wrong

I want to live like I'm leaving
Like Heaven is in view
Live like I'm leaving
I will be evidence of You

Through the shadows of my past
Through tomorrow come what may
I want to live like I'm leaving
Just like I'm leaving today

I've seen people trying to live the social status quo
Surrender to the darker side
All I'm asking for the humble heart to truly know
The way, the truth, the life

As You watch me live my days
Make me sure and strong
Let me tear down the walls
Between what's right and wrong

I want to live like I'm leaving
Like Heaven is in view
Live like I'm leaving
I will be evidence of You

Through the shadows of my past
Through tomorrow come what may
I want to live like I'm leaving
Just like I'm leaving today
