I've been thinking about getting out  
Packing bags and just heading south  
You won't be there on the road  
But to just see a town would help me so

Whether you're there,  
I'll go

You remind me of home  
But I grew up in a rabbit's hole  
You and me seem like a fit  
But stutter step and you're over it

But I won't quit

Cause let me get out, ya  
Cause let me get out, ya  
Cause let me get out, ya  
Cause let me get out, ya

I've been thinking about leaving town  
Giving up and just throwing towels around  
I'd been hoping you would change you're mind  
Up and save her! You're all sane, you're all slaves

Cause let me get out, ya  
Cause let me get out, ya  
Cause let Me get out, ya  
Cause let me get Out, ya

I am holding breath for so long  
I am waiting for the phone call  
I am weighed

Cause let me get out, ya
