The sun had gone down  
Oer the hills in the west  
Its last beam had faded  
Oer the mountain crest  
Amandy was there.. friendless and forlorn  
With her face bathed in blood and her garments all  
torn  
Oh, amandy  
Oh, amandy  
The campfires were kindled  
Each warrior was there and amandy was bound  
Her white bosom bare  
It was vengeance that she counted in the eyes of her  
foe  
And sighed for the time  
When her suffering might close  
Oh, amandy... oh, amandy  
Oh, amandy yeah yeah...  
Oh, amandy...  
Young alban their leader  
Suddenly appeared  
With an eye like an eagle  
And a step like a deer  
He said, "brothers, if your victim be burned by a tree  
Young alban the leader  
Your victim shall be  
Oh, amandy  
Oh, amandy  
The next morning was a vision of red, white and blue  
Gliding oer the waters  
In a light, bark canoe  
Like a wild dove sails over the tide  
Young alban and amandy together did ride  
Young alban and amandy together did ride  
Oh, ride on  
Oh, amandy  
Oh, amandy  
Yeah...  
Oh, amandy
