Out of all the things I've said falling hard over head
It would be a waste to leave all the warm winter eve
Stuck inside your looking glass, I can't, I can't move
forward
You illuminate inside no matter how far from wherever
you are

Don't go, don't go, I need you more than you know
Don't go, don't go I see you, I need you now
If only I could find a way to make you stay just look to
the sky
Maybe I could find a way let the stars light the way
Don't go; don't go I see that I need you

Try my best to walk away failing day after day
Every time I close my eyes you're surreal in my mind
She's the wind until I'm high I'll be there just watch the
sky
You illuminate my heart no matter how far I still see
where you are
And I try to scream, you feel from me, you've got away,
away

Don't go, don't go, I need you more than you know
Don't go, don't go, I see you, I need you now
If only I could find away to make you stay just look to
the sky
Maybe I could find away, let the stars light the way
Don't go, don't go, I see you, I need you

Two turns to one we, set with the sun
Close our eyes together, tomorrow your gone
You can't see why we've got to try honestly
Maybe we quietly let this be peacefully you and me
yesterday you're gone

Don't go; don't go I need you more than you know
Don't go; don't go I see you, I need you now
If only I could find away to make you stay just look to
the sky
Maybe I could find away just let the stars light the way
Don't go, don't go, I see you, I need you now
