Always running like I'm racing, road keeps spinning
while I'm trying to
Chase it down.
Always sooner never later and I only know one way to
slow It
Down.
I want to hear you breathing, feel your head there on
my shoulder,
Man this whole crazy life is moving way to fast

I want to dance real slow
Put your arms around me
Let me hold you close
Girl I want to hear you tell me
Don't let go
I love it when we dance real slow

We can go out honk-tonkin or stay here where no ones
watching, me and you.
Light a candle in the kitchen, I can clear a spot out if
you want me
To.
Put on a record find a station on the radio if it's too
rocking all we
Gotta do is close our eyes and

Dance real slow
Put your arms around me
Let me hold you close
Girl I want to hear you tell me
Don't let go
I love it when we dance real slow

Like we're the only people left in the world. There ain't
nobody here but
Me and you girl. What you say we give it a whirl

Girl I want to hear you tell me
Don't let go
I love it when we dance real slow
