"Back In The City"

Visit "[Back In The City](#)" on MotoLyrics.com

Warm nights in the city, someone's playing Latin in the
park
Street lights shining pretty, shadows on the lovers in
the dark

It's the reason for the getaway
Lay upon the roof and just forget about the day

Chorus:
Back in the city, everybody moves to a different beat in
the city
See the motion, feel the heat of the city
Something's happening in the streets of the city

Cool breeze on the river, making you aware that you're
alive
Bodies start to shiver, passions start to shift to
overdrive

Picture feelings that you can't control
Elementary voices calling deep inside your soul

chorus

(Instrumental break)

chorus repeats out
