"Don't Send Flowers"

Visit "[Don't Send Flowers](#)" on MotoLyrics.com

Carry on to the other side, have some fun on the other side
You were always trippin' on your feet
'Round the wrong way down the one way street
Since the day when you found your wings, you await
too much better things
Now you never get the chance to see, what's been goin'
on inside of me
Don't forget all the love I gave you on your way

Chorus:

Don't send flowers, just give me some hours
Just a minute of your time, would really make it shine,
so think it over
Don't send flowers, from ivory towers
I just wanna see your face, forever and always, please
think it over

Find your way through uncertainty, then one day,
please come back to me
I'll be waiting in the weeks for you
If you find you don't know what to do
Darling, come back to me forever, but till then

chorus

Don't send flowers, just give me some hours
Just a minute of your time, would really make it shine,
so think it over
Don't send flowers, don't send flowers, don't send
flowers
