

**Easton Sheena****"Eternity"**

Visit "[Eternity](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Seems like eternity since I've been in your arms  
A multitude of colourless hours pass  
I crave the life inside you, it keeps me from harm  
I only pray that it's not just another god

Chorus:

Eternity, I want to be with you for all eternity  
Darling you be the only one for me, together for  
eternity

I long to touch your warm, the world out there's so cold  
Whenever we, I don't know, but I do know baby, I want  
you all the time  
You are the beginning, middle and end to every story  
hold  
You are the science of my life

chorus

And it seems like a year away that you and I were  
making love  
One should take life day to day  
But all my dreams are made of, all my dreams are  
made of eternity

chorus repeats 3x...

Eternity, eternity, yeah!
