Turn on the radio, play it soft and low, on a quiet road
we'll drive home

And I will drive you wild with my kisses, I will drive you
wild

Television on, the new heart-throb, pretty TV boys in
this world

On the movie-screen, a seduction scene, and he looks
at me and I breathe

And I will drive you wild with my kisses, I would drive
you wild

Shadow in the moonlit dreary mist, hold me for one
steamy kiss (hot!)

Buried in my book, take a second look, read between
the lines, he's all mine

And I will drive you wild with my kisses, I will drive you
wild

I will drive you wild with my kisses, I will drive you wild

I will drive you wild, I will drive you wild

I will drive you wild with my kisses, I will drive you wild
(repeats out)

Turn on the radio, play it soft and low, on a quiet road
we'll drive home

On the movie-screen, a seduction scene, and he looks
at me and I breathe

Television on, the new heart-throb, pretty TV boys in
this world
