He breaks the records and hearts without a thought  
He breaks engagements and rules and don't get  
caught  
He breaks the hearts of cool ladies with the warmth of  
his smile

He makes advances and dances very well  
He takes his chances and liberties as well  
He takes advice on exception, with a selfish short style

Chorus:  
(He's got) Savoir faire, oh yeah, you can feel it in the  
air  
Savoir faire, savoir faire

Complete attention is what he's seekin' least  
No apprehension, he's never on an ease  
You feel the tension around him, he's tense on a mile

chorus

Like doctor Jackyl he looks so refined  
But there's a devil lookin' in his mind  
He can turn the charm up, make you think that you're  
the one  
Then he'll be gone in the morning

(Solo)

chorus - yeah
