Julius fast body he be free  
Tell me how he flies  
The trees and mailboxes he don't even see  
In a blur the falcon waves right by

He was born much faster than me  
But I don't know why  
They way he go like a bumble bee  
I wish for the means to try

Julius fast body, teach me a trick  
Learn me the tools of your trade  
Look man, I mean it, come here and explain it?  
(A minute?)  
Don't be afraid

But he keep on goin' and stick with it  
He knows he got it made

He's got it made
