Yeah(aww yeah)

Its like erything you stand for, ery experiance you ever
faced in life brings you to a point whether to believe in
yourself or believe in what somebody else foreces
upon you in a dead crossroads is when you make a
decision either to be a soldier or a coward

We walkin through this world unknown flyin on these
wings is broken, flyin on these wings is broken

Now I heard ery day about everything that I shouldnt do
lyk sex n drugs n rock n roll tellin me who I shouldnt
screw

got sisters mamas n cousins buggin n buzzin in my ear
brother pullin n tuggin shovin tellin em what they
wanna here

so hard to stay sane n maintain amongst these lame
brains

lookin at me strange sayin ima change when i get sum
change

niggas steady yappin sayin i wont blow up from rappin
i should do such n such plus i huss to much

but i dont worry be happy dont sweat it dont trip it
dont let me get so pissed i do sum crazy cuz you might
regret it

dont need to keep bein childish n actin funny wit me
its time to stop all this hatin n come make sum money
wit me

We walkin through this world unknown flyin on these
wings is broken, flyin on these wings is broken (aww
yeah) (repeat)

Now I heard ery day about everything that I should do
lyk go to college graduate get a job what I could do
is be more lyk my cousin a lawyer she doin good to
tired of people stressin me devil keep on testin me
soundtrack of real life it take a real nigga to make me a
real wife

n i kno when the time has come itll feel right
for now im walkin down this dark road alone prayin to
god to shed some light

tryin to be so strong but i keep on breakin in pieces
tryin to hold on
dont wanna let go help me oh jesus
to shed the pain instead is seems lyk all you do for me
is let it rain
gotta be another route for me to get out before i go
insane

We walkin through this world unknown flyin on these
wings is broken, flyin on these wings is broken(aww
yeah)(repeat)

Now I heard ery day about everything that I couldnt do
they said I wouldnt make it threw all tha shyt that they
put me threw
they gossip about me when they not around me
i kno that they dont want me to rise they pray on my
demise
n i kno haters out to get revenge lyk tha nerds n shyt
juss gettin absurd
i swear it gets on my nerves
talk shyt about me who cares
gon get knocked down you stand in my way
fuck payin some dues im due for some pay
think ima let yall niggas push me
naw way to intelligent to be talkin bout givin up some
pussy
juss for studio time you outta your mind
your beats juss mediocer i got producers thats doper

We walkin through this world unknown flyin on these
wings is broken, flyin on these wings is broken(aww
yeah)(repeat)
