Now it's the part where we break it down
Gon' break it down
Gon' break it down, gon' break it down
Gon' break it down, just break it down

Now pick it up, just put it down
Now pick it up
Now pick it up, just pick it up
Now pick it up, gon' pick it up

I'm fresh off da block, fresh off da press yes
Stay fresh wit the dress fresh sitting in the Lexus
Fellas wanna date us and the heifers wanna fight us
That's the word that got around that my joint's as tight
as arthritis

And I gotta hit the club, gotta get some love
Mix it with a lot of other stuff, now I'm seeing double
vision
Baby daddies trippin' with they baby mama starting
drama
But it ain't no room to fight tonight it's hotter than the
sauna

You it gotta be the Trackboyz if it's making that noise
Getting paper to my pockets bigger than the Fat Boys
Gon' look around while I gon' put it down
While you scoping around I'm on the floor getting down

But I gotta give you bits and pieces, anything else is
indecent
The club is packed with heaters who don't get mad they
get even
It's getting hot in hurr, tell me how you got in hurr
See so many fine niggaz glad my man not in hurr

Now would you let me put my ass in ya face
(In ya face)
Would you let me put my ass in ya face
If I let you bend me over by the waist
(By the waist)
If I let you bend me over by the waist

Now would you let me put my ass in ya face
(In ya face)
Would you let me put my ass in ya face
If I let you bend me over by the waist
(By the waist)
If I let you bend me over by the waist

Now I'm back once again back in the Benz
Back with some friends, stack in them ends, getting it
crackin' again
I don't need no writers middle finger to the biters
And I shit on more rappers than babies in diapers and
cycles

And you can bet that I'm set, jet in the vet
Aww and don't let me forget the best you done met yet
And I ain't lying catch me buying trying to get inside my
tight jeans
The just ain't saying the right thing, no matter how it
might seem

They like the way them ghetto girls can get they
coochie poppin'
Might take you out and wine and dine he will even take
you shoppin'
Now he gon' keep on spending long as you can keep
from grinning
Guaranteed that you be winning this is only the
beginning

World gotta know that this girl gotta flow
And I'm serving them yo nuthin' like they've heard
before
And that's why I give it to them 'cause I know they want
it and they need it
Don't mean to sound conceited but if you don't eat it
beat it

Now would you let me put my ass in ya face?
(In ya face)
Would you let me put my ass in ya face?
If I let you bend me over by the waist
(By the waist)
If I let you bend me over by the waist

Now would you let me put my ass in ya face?
(In ya face)
Would you let me put my ass in ya face?
If I let you bend me over by the waist
(By the waist)

If I let you bend me over by the waist

Now it's the part where we break it down

Gon' break it down

Gon' break it down

Just break it down

Gon' break it down

Gon' break it down

Gon' break it down

Just break it down

Now pick it up

Now pick it up

Now pick it up

Just pick it up

Now pick it up

Just pick it up

Now pick it up

Gon' pick it up

Now would you let me put my ass in ya face?

(In ya face)

Would you let me put my ass in ya face

If I let you bend me over by the waist

(By the waist)

If I let you bend me over by the waist

Now would you let me put my ass in ya face

(In ya face)

Would you let me put my ass in ya face

If I let you bend me over by the waist

(By the waist)

If I let you bend me over by the waist
