How do you stop yourself from  
Falling apart and going under?  
Lost in a world that's got your  
Name tag, name tagged and your number

One by one, they will find you  
Life goes on behind you  
Behind you

When does it start to fade and  
When do the roads start leading nowhere?  
When all your prayers have been prayed  
That's when you know your dream is over

One by one, they will find you  
Life goes on behind you  
Behind you, behind you

One of these days I'm gonna  
Do as I say and do it my way  
I'm gonna grow those wings  
And learn to fly and hit the sky away

One by one, they will find you  
Life goes on behind you

One by one, they will find you  
Life goes on behind you  
Behind you, behind you  
Behind you, behind you  
Behind you, behind you
