It's just a dangerous bend on a slippery slope
Another rainbow's end on the highway of hope
It's always next time, always next time
Always last time

So get me out of this jam
It's stuck to me like glue
And I can't remember who I am
My memory got lost on you

I had things inside my head
And they put me behind them
Thought they'd be safe in my head
And now I just can't find them

It's just a trick of light
And some sleight of hand
Another kiss goodnight
Along the rise of man

And it's the last time
It's the last time till the next time

Just get me out of this jam
It's stuck to me like glue
And I can't remember who I am
My memory got lost on you

I had things inside my head
And they put me behind them
Thought they'd be safe in my head
And now I just can't find them

Get me out of this jam
It's stuck to me like glue
And I can't remember who I am
My memory got lost on you

I had things inside my head
And they put me behind them
Thought they'd be safe in my head
And now I just can't find them

I had things inside my head
And they put me behind them
Thought they'd be safe in my head
And now I just can't find them

It's gone and that's too bad
The best thing that I ever had
Had the whole world in my mouth
Ate it up and spat it out

It's gone and that's too bad
The best thing that I ever had
Had the whole world in my mouth
Ate it up and spat it out
