Feeling sick
And I need a fix
The one won't get

The lights are on
In heaven no one's home
I need to tell
Of how I fell
Into a one way
No hold's spell
I thought I had the answers
Now I don't know

No
Now, n-now, now, now
Now, n-now, now, now
Now, n-now, now, now
()
Now, n-now, now, now
()
Now, n-now, now, now
(all the thing's)
Now, n-now, now, now
(we'll never do)
Now, n-now, now, now
(no, no)

Comes the breeze
My heart is dying on it's knees
The bizzard's on
No way home
The thief's gone down
_____ the frill
I'm left to shiver in the chill
Everything is gone
And I'm alone

All the people
We'll never be
No now, n-now, now, now (no)
Now, n-now, now, now (no)
Now, n-now, now, now (no)

Now, n-now, now, now

Now, n-now, now, now
_____ on high
And so am i
The truth just goes
To prove the lies
So open up the gate
To let me in
I'm not gonna feel the same again
It's memories in the falling rain
I feel like going straight in again
