Beautiful Angel
I clipped off your wings
Pulled you from the sky
And ran away screaming

Beautiful Angel
Will you ever fly again?
Back to your country
Back to your homeland

Aprils almost over

Come Back to me
I'm a hungry ghost
I wander this world

Across the ocean
Search for the mountain
Promise you promise you
Eternal Fountain
From this you'll draw your power

If love is a looking glass
Afraid what I'd find
Deep inside myself
The limitless kind
From this I'll draw my power

Do I need to say I'm sorry?
Can I help you fix your wings?
I've got crazy glue and duct tape
I've got love to ease the sting
