"Tightrope"

I am haunting your security
I'm gonna steal your identity
And you can work every night and day
Take the sanity from your face

Gonna take everything from you
Gonna leave you tried and true
Don't care if you're feeding four
Christ don't have anymore
Oh...

How the company cares for you
All in their eyes is a love that's true
Walk the tightrope and don't look down
Broken ladder and silver crown

Gonna take everything from you
Gonna leave you tried and true
Don't care if you're feeding four
Christ don't have anymore

Gonna take everything from you
Gonna leave you tried and true
Don't care if you're feeding four
Christ don't have anymore
