I don't wanna save your world
I don't want anyone knowing
I don't wanna stake what shines
I don't want anyone knowing
I don't wanna lead your riot
Anyone can lead a riot

I wear my cover well
I'm gonna find out who you are
Now i know what you've done to me
You paid for the enemy
The cold slide you hide
You horde about you
I don't doubt your downfall

You showed me how to word it out
Told me it was meant to be
Winner gets to carve it up
Loser is history

But i knew all along

I'm gonna find out who you are
Now i know what you've done to me
You paid for the enemy
The cold slide you hide
You horde about you
I don't doubt your downfall
I'll bring you down

Hide awhile
Here among the wasted high and outs
Moving in closer
You go to sleep and i'll be right behind you
Always
You showed me how it's done
You fired the guiding gun
It's how the east is run
And how the west was won
Amen

Hide me now

Among the dead and wasted
Hide me now
