In all day, out all night
You and I see the sights in paradise
Very nice
Take me home, do it 'til your hear aches
And then you'll know my mind

And if I stay
I'd only drive you mad
I'm not that stable, I'm not so right in a way
I find myself at odds wanting to be here
Never arrive

Love and peace
Ill at ease with naked greed
Hunger feeding, aim to please, what a teaser
Maybe I owe it to my own ways
But then I know my mind
You see, I know, I've been there before

And if I stay
I'd only drive you mad
I'm not that stable, I'm not so right in a way
I find myself at odds wanting to be here
Never arrive

If I stay
I'm not the type of girl
Waitin for someone
Waiting at home there's a way out
And only time can tell
Will be here, will I begone
In all day, out all night
You and I see the sights in paradis
