B-b-a-b-y, b-b-l-u-e  
B-b-a-b-y, b-b-l-u-e

You're my baby blue  
(Baby blue)  
That's what I call you  
You know what to do  
(What to do)  
With those eyes of blue

Baby blue, I love you, I do  
(B-b-a-b-y, b-b-l-u-e)

Are you really wise  
(Really wise)  
Do you realize  
That those devil eyes  
(Devil eyes)  
Are bluer than the skies

Baby blue, I love you, I do  
(B-b-a-b-y, baby blue)

I don't call you honey  
Even though you're sweet  
It's really not the name for you

Sweetheart, angel, lover  
All are incomplete  
Only one name will do

So I'm telling you (telling you)  
Though you're seventeen  
You will always be (always be)  
Baby Blue to me

Baby blue, I love you, I do  
(B-b-a-b-y, b-b-l-u-e)  
(B-b-a-b-y, b-b-l-u-e)
