Sad eyes, don't you cry

(Don't you cry)

You are the only one

If I made you cry (made you cry)

I meant it all in fun

I'm sorry, so sorry

If I have broken your heart

(You know I love you)

(Baby, don't be blue)

Sad eyes, don't you cry

(Don't you cry)

I didn't mean to flirt

No one could compare

(Could compare)

With the little girl I hurt

Let's make up, not break up

We weren't meant to be apart

(Sad, sad eyes, don't you cry)

So come into my arms

And tell me that you're mine

The way that you did before

Please let me kiss away

Those teardrops from your eyes

A little smile is all I'm waiting for

Sad eyes, don't you cry

(Don't you cry)

Just tell me I'm forgiven

Please don't say goodbye

(Say goodbye)

It's just for you I'm living

I love you, I love you

Sad eyes, don't cry anymore
