This house of wounds is caving in
At war with the past I'm dying
In blankets of guilt I lie awake
And rivers of tears I'm trying

Don't look back just move on
I know you said it all before
Need to find reasons why
I need you to hear me say

Forgive me
I'm nothing like I used to be
I'm begging you please
Come and take what's left of me
Let's start over, start over again
Start over again

Under it all I know there's more (More)
But the weight of my thoughts are crashing (Crashing)
I hang on the memories of what we were (Were)
I'm giving it all I'm trying
Don't let go don't move on
Forget the past and walk away
Need to know I was wrong
Need you to hear me say

Forgive me
I'm nothing like I used to be
I'm begging you please
Come and take what's left of me
Let's start over, start over again
Let's start over again

Forgive me
I'm nothing like I used to be

Forgive me
I'm nothing like I used to be
I'm begging you please
Come and take what's left of me
Let's start over again

I can't read these burdens I cannot hide
All these times I died inside
I'm begging you don't walk away
Let's start over, start over again
Start over again
Start over again

Forgive me
I'm nothing like I used to be
